

PAYPAL ACTIVATION FOR HOBEX ONLINE

hobex

Dear Sir or Madam, Dear hobex Partner,
You will find the instructions for activating PayPal for hobex Online below!

Customers **without** a PayPal account (www.paypal.com/uk/webapps/mpp/merchant)

1 If you do not yet have a business account, **follow the link above, select „Set up a Business Account“** and follow the instructions.
PayPal's charging model depends on the monthly sales. You will find the charges, costs and all other information on the home page above

2 Once you have **completed** your **registration**, you can use PayPal and receive money. Please **send us your configuration data** as described in the next step (customers with a PayPal account).

IMPORTANT: PayPal does not disburse money from your account automatically.

After the initial registration, PayPal requires your legitimation before you can use this function. Afterwards, you have to draw down funds from your merchant account manually. Please follow the instructions on the home page and in your emails!

Customers **with** a PayPal account

We require the following information, in order to be able to activate PayPal in your online shop:
API Username, API Password and Signature. You will find this information as follows:

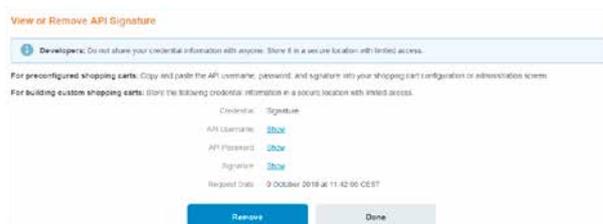

1 Go to „Settings“ in your PayPal merchant account (cogwheel at the top right) and select „Account Settings“.

2 Next select the option „**Seller/Merchant Checkout, APIs...**“ on the left of the menu.

3 You will find the option „**API access**“ in the centre - please click „**Update**“ here.

4 You will find this option on the following page: **NVP/NVP/SOAP API integration (classic)** - please click „**Manage API credentials**“ here.

5 You will subsequently find the required user data: **API Username, API Password and Signature.**

Please send us the required data, preferably **copied in an email** - typing errors in the data transmission can thereby be avoided.

We will be pleased to confirm activation by hobex in writing. Please forward this to your **Web-partner for the online shop**, so that the means of payment is displayed when the payment gateway is called.
