

Paypal-Activation for hobex Online

Dear Sir or Madam, dear hobex partners,
please find below the instructions for activating PayPal on hobex Online!

Customers **without** a PayPal account (<https://www.paypal.com/at/business>)

1 If you do not yet have a business account, please follow the link above, select “Sign Up,” and follow the instructions. PayPal’s fee model depends on your monthly transaction volume. You can find fees, costs, and all further information on the website mentioned above.

2 Once your registration is complete, you can use PayPal and receive payments. Please send us your configuration data as described in the next step (Customers with a PayPal account).

IMPORTANT: PayPal payouts are not processed automatically.

After initial registration, verification is required in order to use this function. Afterwards, you must manually withdraw funds from your merchant account. Please follow the instructions on the website or in your emails!

WE ARE AT YOUR SERVICE!
Do you have any questions or suggestions?
You can reach us on

Customers **with** a PayPal account

To activate PayPal in your online shop, we require the following information. API Username, API Password, and Signature. You can find this information as follows:

1 Log in to your PayPal business account, click on your profile picture in the top right corner, then go to “Account Settings” and select “Account Access.”

2 At the top, you will find “API Access” – please click on “Update.”

3 On the following page, you will see:
“Continue with NVP/SOAP API credentials.”

4 Choose one of the two options and then click on “Continue with credentials*.”
Then select the “Partner” option and enter hobex.
Afterwards, please agree and submit.

5 You will then find the required credentials:
API Username, API Password, and Signature.
Please send us these details via email as text
(not as a screenshot) to avoid any typing errors
during data transfer.

We will gladly confirm the activation from hobex in writing. Please forward this confirmation to your web partner so that the payment methods are displayed when accessing the payment gateway.

*Any PayPal notices regarding supposedly outdated credentials can be ignored.
